Aspiring Software Engineer with a strong passion for AI-powered web development. Experienced in building modern, responsive websites using AI tools such as Tempo AI, and proficient in Python programming at an intermediate level. Adept at generating full-stack applications through prompt engineering and hosting them online with minimal code. Self-motivated and continuously learning emerging technologies in artificial intelligence and web development. Known for creativity, problem-solving, and a keen interest in delivering practical tech solutions.

🎓 Education

B.Tech-Information Technoloy, *Saveetha School Of Engineering*   07/2024 – Present
                                                                                   Chennai, India
- Currently pursuing a degree in Information Technology with a strong foundation in programming, data structures, and web development.
- Gained hands-on experience in building AI-powered websites using tools like Tempo AI and backend platforms like Supabase.
- Actively involved in self-learning through online platforms to enhance skills in Python, prompt engineering, and cloud hosting.
- Participated in technical workshops, coding competitions, and academic projects focused on real-world applications.
